LEARNING

Logistics Learning Modules

Management Trainee Program | 2022 - 2024

Ibnu Haidar | Logistic Supervisor

Placeholder deck - replace public/portfolio/logistics-learning-modules.pdf with your own slides (export PPT as PDF).

Background

- New team members needed an end-to-end view of export logistics.
- Knowledge was scattered across people and documents.

Approach

- Covered breakbulk, container shipping, trucking, port and forwarding.
- Included export documents and their role in each process.
- Structured as standalone modules for self-paced learning.

Result

10

Learning modules developed

Capturing knowledge in modules makes good practice repeatable across the team.
