Transporter Vendor Allocation

Sinar Mas Asia Pulp and Paper | 2024

Ibnu Haidar | Logistic Supervisor

Placeholder deck - replace public/portfolio/transporter-vendor-allocation.pdf with your own slides (export PPT as PDF).

Background

- Volume was spread across transporter vendors without a clear performance link.
- The best-performing (Top 1) vendor received less volume than it could handle.

Approach

- Monitored vendor performance and allocation with regular data reviews.
- Rebalanced allocation toward the best-performing vendors.
- Tracked the Top 1 rate as the key indicator.

Result

+28%

Top 1 vendor rate

Linking allocation to measured performance rewards reliable vendors and stabilises service.
